SUPERIOR FERTILIZERS

For the Lawn, Garden or Farm

(The Name ANDORRA quarantees the quality)

CANADA UNLEACHED HARD-WOOD ASHES (ANDORRA BRAND)

Are a complete fertilizer, replenishing worn-out soils, and, for the lawn or pasture, are economical and valuable. For the lawn, they are easy to handle, produce no offensive odors, are not unsightly, and, quickly leaching into the soil, the chemical properties are at once available for plant food.

Our ashes are selected only from the hard-wood districts of Canada. are carefully screened, and put in convenient packages. Apply at the rate of 1,000 to 1,500 lbs. per acre for top-dressing, or 2,000 to 2,500

lbs, for new lawns,

PREPARED LIME

Where soils, from constant applications of manure, are sour and need a fertilizer to sweeten them, lime is a valuable agent. It quickly puts the soil in condition to assimilate plant-food. It frees the potash, phosphoric acid and nitrogen already in the soil, and turns the nitrogen into the rich nitrates valuable for plant use.

Our prepared lime is fresh from the kilns, clean, well burnt, thor-

oughly decarbonized and especially prepared, so that it will go three times as far as the lump lime generally used, and is fine enough to run through a drill. Use 500 lbs. per acre.

			Cars, 12 to 25 tons

Dy wagon	1 20	19 00	

POTASH AND PREPARED LIME

Where potash is needed in addition to lime, this preparation will be found valuable. It contains 4% actual potash, equal to 8% of sulphate of potash, the prepared lime being used as a filler, and makes a valuable ton-dresser for lawn, pasture, or grass lands. Apply at the rate of 500 lbs. per acre.

PEAT We have on hand a stock of carefully selected peat, suitable for potting or planting Rhododendrons and shrubs that need such soil. Sack of about 100 lbs., \$1. In sacks, \$15 per ton.

SPHAGNUM MOSS

An excellent quality on hand. Large bales, \$2 each.

Andorra Nurseries

CHESTNUT HILL, PHILADELPHIA, PA.

OUR NURSERIES are extensive, covering six hundred acres, of which over three hundred are planted with trees and shrubs. They are easy of access, as Chestnut Hill is the terminus of branches of the Pennsylvania and the Philadelphia & Reading railroads, and the Chestnut Hill (City Line) trolley runs from the stations to within three minutes' walk of the Nurseries.

QUALITY .- The trees and shrubs offered are grown in open, unsheltered ground, in a very exposed situation, which insures their hardiness, and on soil admirably adapted for forming robust plants having an abundance of roots. Special attention is called to the fact that our stock is grown a good distance apart in the rows, insuring heavier trees and shrubs than are generally offered

SHIPPING SEASON opens about March 1 in the spring and August 15 in

the fall.

INSPECTION AND FUMIGATION.—Our stock is regularly inspected and certificate will be sent with each shipment, Stock will be fumigated when requested or when the State laws require it.

TERMS AND CONDITIONS

ORDERS .- All orders are accepted subject to the following terms and conditions. Write plainly and give explicit directions as to address and mode of shipment

STOCK SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen.

QUANTITY.—Lots of 5 and 50 will be furnished at the 10 and 100 rates respectively

PACKING .-- All goods are thoroughly packed, thus avoiding risk, if de-

laved in transit. Packing charges are made at actual cost.

FORWARDING.—Shipments will be forwarded exactly as directed; but when without instructions, we will use our best judgment and forward by shortest and safest route. We recommend all herbaceous plants be shipped by express.

RISK.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good

CLAIMS for damage while in transit must be made to the delivering company. Have delivering agent note the damaged condition on the freight

bill and present your claim through him promptly.

GUARANTEE AND CLAIMS.—All goods are guaranteed true to name, full count, up to grade, and in good condition when shipped. Any plant proving untrue to name will be replaced. Claims to receive consideration when heads within 600 dates the results of the consideration when the results of must be made within five days after receipt of goods. We give no guarantee of the life of stock.

TERMS. CASH WITH ORDER, except to persons who satisfy us as to

their responsibility.

DECIDUOUS TREES

Measurements are given as follows: Height is taken before digging, from the surface of the ground to the top branches where they round off to form the top; diameter of stem, or caliper, is taken above the collar.

OUR CATALOGS

- THE ANDORRA HANDBOOK. Planters who desire a complete descriptive list will be supplied with our Handbook of Trees and Plants for 50 cents, which will be credited upon their first purchase amounting to \$5.

 ANDORRA'S HANDBOOK will serve as a standard guide, being up-to-date in nomenclature, and containing conservative descriptions of a vast list of trees and plants, with hints on planting, pruning and caring for them. It is illustrated and fully indexed.
- PRICE-LISTS are issued semi-annually. Owing to our large output, and the changes in sizes of stock by reason of each season's growth, frequent revisions of the PRICE-LIST are necessary, to keep customers thoroughly posted on the stock we offer. You are always sure your order will be filled if you find the items in the current season's PRICE-LIST.
- MORE SPECIALTIES, a booklet of 32 pages, describing and illustrating a large number of very choice things for the country home. A great help in deciding upon just the right thing to plant.
- **BEAUTIFUL LAWNS, BOOKLET No. 27.** This little pamphlet treats of Lawn Fertilizing, and its eight pages should be carefully read by all interested in having a good lawn.
- BOXWOOD, BOOKLET No. 28. For formal gardens and in connection with architectural effects, BOXWOOD is now absolutely necessary. This booklet shows the different forms we offer.
- HINTS FOR SUCCESSFUL PLANTING, BOOKLET No. 30. Does not aim to cover every point that may arise, but it gives the principles in such a way that any one, by following its directions, can secure the best results.
- A CALENDAR OF HARDY PERENNIALS, BOOKLET No. 33-26, with special lists of Iris, Phlox, Peonies and Chrysanthemums. This little booklet gives a complete list of Perennials, and shows in tabulated form their height, color, and months of bloom; invaluable to those planning herbaceous gardens.

MEASURING TREES AND SHRUBS

All trees and shrubs are measured as they stand in the Nursery before digging. In evergreen trees and in evergreen and deciduous shrubs the height is taken from the ground to the top of the plant.

Deciduous trees are measured from the ground to the top of the head, and the caliper or diameter of the trunk is taken above the collar. Measurements are expressed thus: 10 to 12 ft. (height), $2\frac{1}{2}$ to $2\frac{3}{4}$ in. (caliper).

Plant for Immediate Effect

Not for Future Generations

Start with large stock—it has taken years of special preparation to grow such Trees and Shrubs as we offer you.

We have done the long waiting—you can secure at once specimens that will give immediate and permanent results.

AS AN EXAMPLE

Note in this Price-List, page 21, Norway Maples, 14 to 20 ft. in height with trunks 4 to 10 in. in diameter. Specimen trees with broad tops and a system of fibrous roots that makes transplanting successful—trees that are sure to grow. Such trees simply "make your place."

AN IMPORTANT POINT

These specimen Trees and Shrubs are Andorra-Grown—they are here at our Nurseries where you may inspect them and reserve such as suit your purpose.

ANDORRA-GROWN MEANS QUALITY
QUALITY IN TREES MEANS SUCCESSFUL PLANTING
